About

WALTERS is a spatially linked electronic document storage system and your go-to product for data storage, access, management, and sharing. Use WALTERS to identify facilities, sites, or places of environmental interest in Guam. The improved storage design allows data to be attached to a geographic location for easy discovery and visualization, and the integrative system makes it easier than ever to share data between divisions.

By integrating WALTERS into your workflow, we can help make Guam a better place to live and work by sharing information to help obtain better environmental outcomes.

If you have feedback, questions, feature requests or discover an issue please email [Travis Bock \(tbock@innovateteam.com\)](mailto:tbock@innovateteam.com) and [Joe Poncy \(jponcy@innovateteam.com\)](mailto:jponcy@innovateteam.com)

Updates

Updates

9/13/2016 Update merge action. See help docs for more information as to how the merge action works.

11/2/2016 Added Solid Waste current quarter counts to dashboard. Tweaked Solid Waste complaint print to increase space for incident details.

11/7/2016 Fixed typo in Solid Waste Current Quarter counts. Changed Inspections to Complaints.

Edits in the last 7 days:

Sites: 147

Tier II: 0

Solid Waste: 2

Pre-CERCLIS: 0

Monitoring: 0

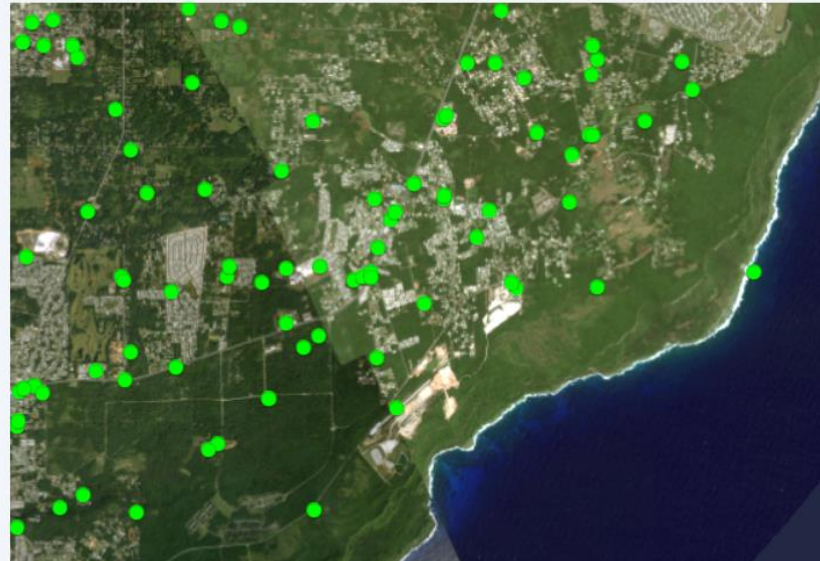

You have important messages!

You have 5 permits ready for your review. Go to your [Permit Review Queue](#) to begin.

You have 1 past due [Storage Tank enforcement action](#).
